DETAILED ACTION

Election/Restrictions

Newly submitted claims 1, 7, 9, 15, 17, 21, 27 and 29-54 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: originally, the invention was directed towards authenticating information, such as whenever a card is inserted into the image processing device, regarding a request. Now the invention is directed towards discriminating whether the setting information is being operated or not on the image processing device. As a result of this, there are two different classifications. The original claimed invention is classified as a way for secure printing, while the amended claims are classified as a way for setting certain information on the image processing device. Therefore, the newly amended claims are directed towards a different invention than what was originally claimed.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1, 7, 9, 15, 17, 21, 27 and 29-54 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to

Art Unit: 2625

supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
